

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings of claims in the application:

LISTING OF CLAIMS:

1. (original) Inspection apparatus (100) comprising, in a secure casing:
 - a central processing unit (1),
 - at least one digital audiovisual device (2),
 - a clock (3), and
 - a watermark (4) capable of embedding the temporal information provided by said clock (3) in the data stream coming from said audiovisual device (2).
2. (original) Apparatus according to claim 1, characterized in that said audiovisual device (2) is a camera.
3. (original) Apparatus according to claim 1, characterized in that said audiovisual device (2) is a video camera.
4. (original) Apparatus according to claim 1, characterized in that said audiovisual device (2) is a sound recorder.
5. (currently amended) Apparatus according to ~~any one of the preceding claims~~ claim 1, characterized in that it further comprises a device (5) for measuring the geographic position of the apparatus, and in that said watermark (4) is capable of embedding the information provided by said geographic position measuring device (5) in the data stream coming from the audiovisual device (2).

6. (original) Apparatus according to claim 5, characterized in that said geographic position measuring device (5) is a receiver forming part of the GPS system.

7. (currently amended) Apparatus according to ~~any one of the preceding claims~~ claim 1, characterized in that it further comprises a distance measuring device.

8. (currently amended) Apparatus according to ~~any one of the preceding claims~~ claim 1, characterized in that it further comprises a thermal probe.

9. (currently amended) Apparatus according to ~~any one of the preceding claims~~ claim 1, characterized in that it further comprises an inclinometer.

10. (currently amended) Apparatus according to ~~any one of the preceding claims~~ claim 1, characterized in that it further comprises an electronic compass.

11. (currently amended) Apparatus according to ~~any one of the preceding claims~~ claim 1, characterized in that it further comprises at least one connector (10) enabling an external source of secure data to be attached.
